

How to suggest a product

1. Go to a product page on Techfinder.org.au
2. Click on “Suggest a Product” at the top of the product page
3. This will take you to a new page where you can enter information about the product you would like to suggest
4. Type the name of the product into the “Product name” field (this is required)
5. Type information about the product into the “Comments” field
6. Type the product’s website link into the “Website link” field
7. Answer the captcha question in the last field (this is required)
8. When you have finished, click “Submit”

We’re looking forward to receiving your suggestions!
